PROJECTS

Jansevaa Foundation: <https://janseva-2-zeta.vercel.app/>

- Developing a NGO website with a strong focus on accessibility and responsive design.
- Used Reactjs for building UI interface and data collection for the project i used Shaden for making components at 2x speeds.
- Adhered to web accessibility guidelines and industry best practices to ensure an inclusive and user-friendly experience.

Family Golf Website: riturajmahapatra.github.io/family-golf/

- Designed and built a feature-rich website for a family-owned golf business, emphasizing responsive layouts and interactive features.
- Ensured a visually appealing and user-friendly experience, following UI and UX principles.
- Demonstrated proficiency in graphic design and front-end development to create an engaging online presence.

Trivia Game (JavaScript): riturajmahapatra.github.io/Trivia-Game/

- Created an interactive trivia game with multiple-choice questions, score tracking, and a timer using JavaScript, HTML, and CSS.
- Implemented accessibility features to ensure the game was usable by a wide audience.
